

Caritas
Baby Hospital
Bethlehem

December 21, 2022

Dear Friends and Supporters of Caritas Baby Hospital,

As we reach the end of the year 2022, I stand and reflect on the challenges faced around the world, due to the post pandemic reality.

For the people of the occupied Palestinian territories and other regions, this new reality added up to the insecurities associated with the deteriorating socio-political situation.

Nevertheless, Caritas Baby Hospital remains a beacon of hope for Palestinian families who turn to it to treat their children and improve their quality of life. In addition to our routine tasks in treating, rehabilitating and supporting Palestinian children, we were able in 2022 to define our directions for the upcoming years within the hospital's new strategic plan; CBH -2025 reinventing the future.

In its new vision "Better health for all children in Palestine", the new strategic plan carries a promise to improve health outcomes for Palestinian children through specialized and safe services provided by a highly qualified team.

In order to achieve these results, we look forward, as management and staff, not only to maintain our distinguished health services, but also to expand their scope as we respond to the needs of the largest group of the Palestinian society, which is children. This is also aligned with the on-going investment in our cadre to ensure the highest quality of treatment and patients' safety.

Today, as we stand few steps away the hospital's 70th birthday, I feel very proud of every contribution that enabled us to alleviate the pain of a child and to help their family overcome the ordeal of illness.

I am also grateful to all who accompanied us on our journey and supported the survival and continuity of Caritas Baby Hospital over the past seven decades, including founders, supporters, employees, and most importantly our operating agency Children's Relief Bethlehem. This standing hospital is the result of local and international efforts of those who believed in the rights of children, especially the most marginalized and the less fortunate.

Thank you again for remaining faithful to Caritas Baby Hospital.

Merry Christmas and happy New Year.
